## Selection and Review of Textbooks, Instructional Materials, and Media Materials Policy

The Wicomico County Board of Education (WCBOE) recognizes the importance of textbooks, instructional materials, and media materials to the successful functioning of an educational system. Therefore, it is the policy of WCBOE to provide for its students a comprehensive selection of materials and textbooks which support curricular goals and objectives and reflect the needs, varied interests, abilities and maturity levels of the divergent student population it serves. WCBOE encourages the use of textbooks and materials which enlighten, inspire, encourage, instill hope and foster good decision-making, as in comparison to those which discourage, convey a sense of futility or affirm negative or destructive character traits. These materials should also support the mission, vision, educational philosophy, beliefs and values endorsed by the Wicomico County Board of Education.

The Wicomico County Board of Education directs the Superintendent of Schools to create procedures to implement this policy.
